CRYPTO PORTFOLIO MANAGEMENT

W proposes an investment portfolio to benefit from the fast-growth of the crypto economy while mitigating volatility and the specific crypto risks based on the 4 following pillars :

- A. The security of an institutional custodian
- B. Investor protection through regulated only investment products
- C. Portfolio diversification with a variety of assets :
 - Crypto funds specializing in cryptocurrencies and blockchain infrastructures,
 - Stocks of blockchain-related companies,
 - Bitcoin futures,
 - Private placements pre-ICOs.
- D. Active management of investment positions to mitigate the volatility of the crypto market.
